PAINTING SCHEDULED FOR UM PARKING LOTS

IMMEDIATELY.

Two parking lots at the University of Montana will be painted within the next two days.

Ed Russ, chief of UM Physical Plant protection, said lot F south of Elrod Hall will be painted Thursday (May 8), and lot G, which serves the Knowles-Jesse-Turner dormitory complex, will be painted Friday (May 9).

Russ has requested motorists who usually park in those lots to park elsewhere on those mornings. Painting of the lots on the respective days begins at 6 a.m. The lots are scheduled to reopen in the afternoons.

UM MATH PROFESSOR TO LECTURE IN CALIF.

Dr. Howard E. Reinhardt, a mathematics professor at the University of Montana, has been invited by the Institute of Mathematical Statistics to lecture at the IMS Western Regional Meeting in Monterey, Calif., this week.

The UM professor is one of 16 statisticians from the Western U.S. who have been invited to discuss aspects of statistics. In his paper entitled "Some footnotes to the Neyman-Pearman Lemma," Dr. Reinhardt will show how a number of apparently unrelated results--some dating from the 17th century and some announced within the past year--can be traced to a single simple notion.
